ENDOWED SCHOLARSHIPS

CHRISTINA BAKER SCHOLARSHIP FUND

This scholarship was created in 2013 with gifts from friends and family of Christina Baker. The four-year scholarship is awarded to students with financial need, with a preference toward Wabanaki and Native American students and students engaged in gender studies and literature.

WHY WE GIVE

“When our mother passed away in 2013, we thought hard about the best charity—locally, statewide or even nationally—to reflect her passions and values, and also where our support could make a difference. Through her career as a college professor and her service in the state legislature, she lived a life committed to uplifting youth, women and native people, and living close to the land. The wealth of intellectual activity emanating from COA reflects precisely our mother’s principles and purpose.”
